Workshop for style and body-language, vocal and instrumental -

Animated by Frédéric Stochl, proposes, through progressive physical and vocal training, to give oneself both to real-time awareness and musical innovation in play ranging from solo to collective.

Exploration not excluding confronting oneself to requests such as texts, scenic propositions both choreographic and theatrical.

Individualized courses of instruments

The individualized Harp courses of Frédérique Cambreling, Flute with Marine Perez and Cello with Pauline Bartissol will take place throughout the residency.

Free Repertoire,

For harpists it is recommended that you bring your instrument, with the understanding that if this is not possible a Salvi harp will be available for your use.

COMPLEMENTARY OPTION

Within the framework of the residence at Trio Salzedo, the Tannerie also proposes :

→ Workshop of physical body-language adapted to musicians:

The course proposes an exploration of the body structures of each person, adjustment of posture, stress management, refinement of sensorial consciousness in order to develop ease, subtlety and precision of movement.

The techniques used originate in contemporary dance, as well as methods of physical consciousness and analysis of movement : Feldenkrais, M. Alexander, Eutonie, Pilates as well as yoga and Qi qong.

The accent is placed on breathing but also on subtle kinesthetic perception, muscular, skeletal, organic and cutaneous sensations. Aside from the dynamic reinforcement of corporal capacity, this work leads to the opening of internal areas in the body, areas of centering and awareness.

Animated by Nathalie Pommeret, trained in the teaching of dance at the Royal Academy of Dancing, London, Art therapist in the hospital domain, Graduate of the Université Paris V, René Descartes. Collective courses at the Temps du Corps (cultural centre of the practice of traditional chinese health), individual courses with professional musicians.
